**REPORT ON CAREER COUNSELLING FOR EMERGING TRENDS IN
TECHNOLOGY**

The students of CSE department, Mother Theresa Institute of Engineering and Technology, had the opportunity of part taking in half a day career guidance program held in the college premises on 31st December 2018.

Soon after the formal event, began the interactive session which brought speaker to give a talk on competitive examinations. The speaker was **Mr. Naveen**, trainer and developer from takeoff (A Division of young minds technology solutions Pvt. Ltd.,) he spoke in brief about recent technologies in computer science.

He first talks about recent technologies like IOT, Deep learning, Internet of things (IoT) is the network of devices such as vehicles, and home appliances that contain electronics, software, actuators, and connectivity which allows these things to connect, interact and exchange data. IoT involves extending Internet connectivity beyond standard devices, such as desktops, laptops, smart phones and tablets, to any range of traditionally dumb or non-internet-enabled physical devices and everyday objects. Embedded with technology, these devices can communicate and interact over the Internet, and they can be remotely monitored and controlled.

After IoT concept he explain about Deep learning (also known as deep structured learning or hierarchical learning) is part of a broader family of machine learning methods based on learning data representations, as opposed to task-specific algorithms. Learning can be supervised, semi-supervised or unsupervised. Deep learning architectures such as deep neural networks, deep belief networks and recurrent neural networks have been applied to fields including computer vision, speech recognition, natural language processing, audio recognition, social network filtering, machine translation, bioinformatics, drug design, medical image analysis, material inspection and board game programs, where they have produced results comparable to and in some cases superior to human experts.

The I, II, III & IV students of CSE (398 in Number), Mother Theresa Institute of Engineering and Technology have been participated in the program actively during the period of 31st December 2018. to 31st December 2018.
